ABOUT ME

Passionate MERN Stack Developer trained at Saylani Mass IT Training, Karachi. I build complete, production-ready web applications from frontend to backend — with a focus on clean code, real-world projects, and continuous learning.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js, Vite, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, Mongoose, Firebase

Auth & Media: JWT (JSON Web Tokens), Cloudinary

Tools: GitHub, Vercel, REST APIs

PROJECTS

Orbit Task — SaaS Project Management App

MongoDB · Express · React + Vite · Node.js · JWT · Tailwind CSS · Cloudinary · Vercel

- Built a full-stack Trello-inspired project management app with drag-and-drop boards
- Implemented JWT-based authentication and role-based access
- Integrated Cloudinary for media uploads and Vercel for deployment
- Smooth drag-and-drop task management across columns

Aura Scarves — MERN E-Commerce Platform

MongoDB · Express · React + Vite · Node.js · JWT · Cloudinary · Tailwind CSS · Vercel

- Developed a complete e-commerce platform for a luxury modest fashion brand
- Built an admin dashboard with product, order, and user management
- Implemented full JWT auth flow (register, login, protected routes)
- Managed product images via Cloudinary; deployed frontend & backend on Vercel

EDUCATION

MERN Stack Web Development

Saylani Mass IT Training (SMIT) — Karachi

- Completed intensive full-stack training covering MongoDB, Express, React, Node.js

Web & Technology Fundamentals

Governor House IT Initiative — Karachi

- Completed program under the Governor Sindh's initiative for modern IT & web development skills

Intermediate

Karachi, Pakistan
